

BEOSOUND 35

All-in-one wireless music system

MUSIC TAKES YOU PLACES

BeoSound 35 is a high-end wireless speaker and all-in-one multiroom music system with an easy-to-use touch interface and integrated access to music and radio streaming services. Elegantly crafted from aluminium, BeoSound 35 is designed to fill the entire room with a well-balanced sound, whether placed on a table or a wall. The pentagonal circumference allows you to cleverly tilt the music system for convenient access, so wherever you place it, you will easily be able to directly touch and control it.

FEATURES

BeoLink Multiroom

If you are looking to design a wireless multiroom setup around BeoSound 35, you have the opportunity to combine it with a range of our BeoLink Multiroom products. BeoLink Multiroom technology is integrated and ready.

One-touch-go easy local operation

Primary operation directly on BeoSound 35:

Start music / Volume / Mute / Source selection / Previous / Next / Stand-by / Join BeoLink Multiroom

Adaptive Bass Linearisation (ABL)

Continuously adapts the bass response to the input signal, resulting in a significantly improved bass performance, without the risk of damaging the driver.

Room adaptation

Wall, corner and free standing option via the setup menu. Control the bass response depending on placement in the room.

Thermal protection

The temperature of the speaker driver is constantly monitored to keep the speaker performing well at all times.
